

March Museletter

It's been a fabulous first quarter of the year with events as well as some travel and a Special Events Convention in New Orleans! Here's a peek at some of our recent entertainment packages and what's new with Catalyst Arts!

CSI Corporate Event

Our 3rd year in a row to provide Body Painted entertainers to this event. This year we created Ice Queens who were ambient & photo opps during the reception and later that night the guests were surprised with our beautiful painted mermaids.

What's New

Beauty & Body Art Stations

We created multiple customized Human Decor stations this holiday party season...

from Lashes & Staches for a 20's party, UV Glow for a big tech party, Airbrush Art at a Futuristic party, to Enchanted Embellishments for a whimsical bar mitzvah... we only hire super talented pros and we make a very fun Interactive Experience that gets the guests in the spirit of the party & it's theme.

We love customizing new Interactive Human Decor Zones!

New Video - Futuristic Cirque show from Intergalactic Gala

We provided Stilt Walkers, Tray Ladies, and a bunch of talented dancers & cirque entertainers who performed to a VIP Party for CACM Convention in Santa Clara.

Constellation Skirt

Another way to serve your drinks is with our futuristic looking Constellation Skirt that'll definitely make your guests feel the vibe of your event.
